## ABOUT COMPANY

Metaline LLC was established in 2007 with the objective of specializing in the fabrication of metal architectural, mechanical and structural works, required for all types of landscaping projects in the Middle East. Since then, Metaline has expanded its operations so as to include the fabrication of stainless steel railings, bollards, window grills, balustrades, staircases, water features, as well as all related decorative works, just to name few. Metaline also specializes in custom-made furniture and decorative works, which are made as per the specifications of our clients' design to suit their own individual requirements.

Metaline is based in Ras Al Khor Industrial Area, Dubai. Our workshop covers an area of 900 sq. m. and employs an experienced team of skilled workers. We adopt the use of state-of-the-art equipment in the manufacture of our products such as drilling and rolling machines, arc welding machines, (including Argon and TIC welding) as well as CNC lathe and the latest water jet technology.

We have professional experience in working in the UAE and the Gulf Region, which has provided us with an explicit understanding of the needs and requirements of our clientele. We cater to the fabrication of a wide range of products of the highest quality and premium aesthetics, and know how to best assist our clients to guarantee complete customer satisfaction.

## OUR PROJECTS

Metaline LLC, as a metals fabricator, has executed several prestigious projects in the UAE and the Gulf Region. Our professional staff and skilled workforce ensure that the quality of our products and services are maintained at the best of standards and to the complete satisfaction of our clients and customers.

Metaline was the chosen metals fabricator for the prestigious Burj Khalifa, currently recognized as the tallest structure in the world. Our projects also include Dubai Mall, the largest shopping mall in the world, as well as The Walk-JBR and DAFZA (Dubai Airport Freezone Authority).

Metaline has had the privilege of working with a range of distinguished consultants in Dubai and Abu Dhabi. Over time, we have acquired extensive experience and expertise in the landscaping sector, and have thus developed our company into the ultimate TRUSTED SPECIALIST FOR METAL WORKS.
